 DD10-4

As a User i would like to be able to find and use more weapons, sorted by class to try and mix builds making the experience more enjoyable

+ Add

 Apps

To Do ▾

Description

- Add a class named Arma
- Sort various weapons in base of the class, making them unique with GenerateStats()
- give them various descriptions and damage points

 Add epic

 DD10-2

As a Designer, i would like to be able to interact with various character which could lead to small talk or a fight phase

+ Add

 Apps

To Do ▾

Description • Unsaved changes

- create a class Image Panel where we can put images inside the fighting phase
- (trova altri consigli su cose che abbiamo gia' fatto)

As a User of the program, i would like to have more races and classes in the game, so it could feel more different and playable multiple times

+ Add

⦿ Apps

To Do ▾

Description

- In the start add a window to let the user select race and class
- put the button through custom interface to not make them choose more than 1 race or 1 class
